Good Afternoon,

The following content has been updated on the DAIDS RSC Website:

- **Clinical Research Sites – Protocol Registration – Forms:**
  - The most current version of the DAIDS Investigator of Record (IoR) Form was posted.

Please note that the DAIDS IoR Form has been updated as of March 3, 2017 to add the statement “I have read and understand the information in the investigator’s brochure, including the potential risks and side effects of the drug” to the Commitment section of the document. Sites do not need to update DAIDS IoR Form for existing submissions. However, if/when a new or updated DAIDS IoR Form is required, as of March 3, 2017 please use the updated version (version date of 3/2017) when completing this form.

The document can be viewed at: <http://rsc.tech-res.com/clinical-research-sites/protocol-registration/form>

Here is a link to the DAIDS RSC website: <http://rsc.tech-res.com/>

If you were linking directly to any file on the DAIDS RSC website, you will have to update your links since some files are archived and new files are renamed.

To view a list of recent updates to the website, go to <http://rsc.tech-res.com/news/web-update-log>.

Thank you,
