Protocol Registration

Protocol Registration (PR) is the process by which DAIDS confirms and tracks Clinical Research Site (CRS) compliance with NIAID (DAIDS) policies, institutional review board (IRB) requirements, and U.S. federal regulations for investigational research involving human subjects.

What Training is Available?

1. PR Policy and Manual Training

- Includes training on the DAIDS PR Policy and Manual.
- Currently available via webinar. An eLearning module (web-based training) is in development for future launch in the DAIDS Learning Management System (DAIDS LMS).

2. DAIDS Protocol Registration System (DPRS) Training

- Includes training on the web-based system (DPRS) used to submit PR documents.
- Currently available as an eLearning module (web-based training) in the DAIDS LMS.

Who Should Attend Trainings?

- NIAID (DAIDS) supported and/or sponsored clinical research site staff:
 - a. Responsible for preparing and/or submitting documents for PR,
 - b. Involved with reviewing or tracking PR documents.
- DAIDS and network operations staff assisting sites with implementation of the PR Policy.

Why Should I Attend Training?

- Compliance with the PR Policy is required as of 01 November 2010. **PR Policy and Manual Training** is *strongly recommended* to increase compliance with the policy.
- All CRSs are required to submit PR material through the DPRS as of 01 May 2010. **DPRS Training** is *required** prior to use of the web-based system (DPRS).

*Previous DPRS training fulfills the requirement for use of the DPRS. If you currently have a DPRS username and password, you are not required to attend additional DPRS training.

How do I Sign-up for Training?

Please find PR training enrollment and other information at the [Protocol Registration Homepage](#).

PR training, registration and additional information is also available through the [DAIDS Learning Management System \(DAIDS LMS\)](#). If you do not have a DAIDS LMS account [click here](#) to request account access.
